Summary of Qualifications

Mr. Rachlin is a Principal and Consulting Actuary with the Health practice of the Tampa office of Milliman. While working at Milliman he has served clients throughout the United States, on matters relating to health care and health insurance. Clients have included insurance companies, Blue Cross and Blue Shield Plans, other health plans, employer groups, State insurance departments, other state and local agencies, law firms, hospitals and physicians. Mr. Rachlin's experience covers a wide range of healthcare topics, with significant emphasis on managed care. He has assisted clients with operational reviews, developing and pricing new plan designs, contract negotiations, and fee schedule analysis. He provides expert witness support on issues related to his areas of expertise. He has extensive experience with pricing, underwriting, and reserving, working with individual and group Commercial, especially as related to the Affordable Care Act, Medicaid and Medicare Advantage products.

Employment Experience

Milliman **1998 to present**
Principal and Consulting Actuary

ChoiceCare HealthPlan **1994 to 1998**
Actuary

Mr. Rachlin was hired as the first actuary for the company. He was responsible for all actuarial services for the regional HMO of approximately 275,000 members in a tri-state area. Traditional actuarial responsibilities included pricing, filings, and reserves analysis. He supported Underwriting and Sales and Marketing departments on a regular basis and assisted with product development, provider contracting, and strategic planning. He served as key member of various project teams including development of their first Medicare Risk (Advantage) product, market expansion, for-profit conversion, and integration into a national carrier.

CIGNA Corporation **1984 to 1994**
Various Actuarial positions

Mr. Rachlin progressed through CIGNA's actuarial program in a series of rotations, culminating with the position of Assistant Actuary, Group Insurance Division, as the managed care pricing actuary for several major markets, including Florida. Most positions included management responsibilities. Additional relevant health experience included functioning as information officer for the Eastern Region, which required working heavily with Underwriting and Sales to develop an improved management reporting system.
