

Dr. Ian Aires has been practicing dentistry for more than 35 years. His clinical and innovative approach coupled with his education proves him to be a competent, thoughtful, well-prepared expert while having an excellent track record defending both dentists and patients.

As the founder and past president of the San Diego Prosthodontics Society and serving several years on the Peer Review committee, Dr. Aires has been deposed and on the witness stand, exuding his expertise in the matters at hand. He is known for his invaluable insight, confidence, and experience, leading to outstanding successes.
