SUMMARY

With over 25 years of clinical experience in Clinical Rheumatology, I am a seasoned expert in my field, now stepping into the role of expert witness. I have maintained board certification since 2000.

I've owned a successful private practice since 2002. My clinical expertise spans Fibromyalgia, Rheumatoid Arthritis, Gout, Psoriatic Arthritis, Osteoarthritis, Lupus, and Osteoporosis. With a special focus on biologics and Early Arthritis management.

I've enhanced my skills through SEAK's expert witness training, preparing me to offer insightful, evidence-based testimony. This training combined with nuanced, clinical acumen has prepared me well for this field. Alongside my practice, I serve as an Associate Clinical Professor and volunteer at a local community clinic. These activities keep me deeply connected to both clinical practice and community health needs.
